

BG10

Rotary pulse panel generator Vertical / horizontal PCB

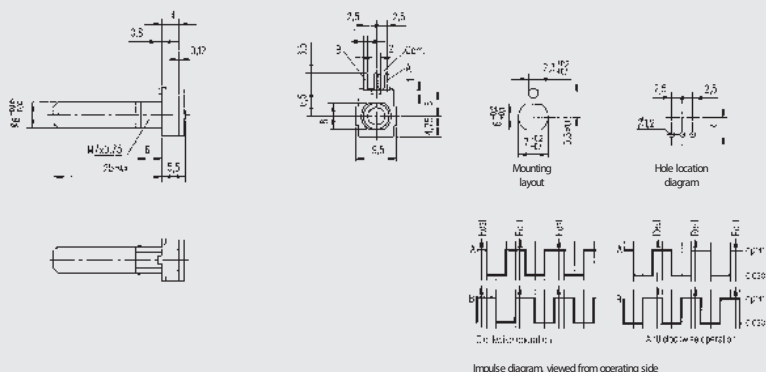

Encoder incrementale compatto da pannello; PCB verticale/orizzontale
Drehimpulsgenerator Vertikale / horizontale Leiterplatte

Detent angle Angolo di scatto <i>Rastwinkel</i>	18°	Pulse per output Impulsi giro <i>Rundenimpulse</i>	20
Integrated button Pulsante integrato <i>Integrierte taste</i>		Shaft length Lunghezza albero <i>Schaftlänge</i>	25 mm
Detent mechanism Generazione impulsi <i>Integrierte taste</i>		Mechanical Elettromeccanico <i>Elektromechanisch</i>	
Recognition of rotation Riconoscimento rotazione <i>Erkennung der Rotation</i>		2 selected outputs 2 segnali sfasati <i>2 ausgewählte ausgänge</i>
